How to use MyMaths to support your child's learning at home

How to access MyMaths

Go to www.mymaths.co.uk and login at the top of the page with the school's username and password. The school username is: **springfield5** The school password is: **success82**.

Your child will be set a task each week by their teacher which will appear in the Homework area. There is a link to the lesson for children to revise first, and a link to the homework itself.

When your child completes both pages of an Online Homework the scores will be saved to the database. Their teacher will be able to see how well they did and leave feedback.

If a **green star** appears next to a topic, they have good skills in that area.

If an **amber star** appears they still have some difficulties.

If a **red star** appears they need to go back and relearn the topic. Get them to try the lesson again or ask their teacher for extra help.

If you want to work with your child, an effective strategy is to pretend that you have forgotten how to do something and ask them to show you how. Putting your child in the position of "teacher" is good for their confidence and gets them to talk about their thinking.

If you have any questions on using MyMaths at home, visit our dedicated support site. You can access this at any time by clicking Help at the top of the screen.

Having trouble accessing MyMaths?

If no links are working, it may be that you have a Pop Up Blocker. You will need to allow MyMaths to use Pop Ups and we suggest that you add **www.mymaths.co.uk** to your list of trusted sites.

If you are having trouble accessing content, it may be that you need to activate Flash in your browser. You can find more information on this in the technical section of our support site by clicking Help at the top of the screen after you've logged in.
